

Anita Tran

UX/UI Designer

I am a Multimedia design graduate currently broadening my skills on a Top-up programme. I have good communication skills, which allows me to understand and work together with numerous people. I am a highly empathic person and love to dig deep to understand human behaviours.

Work experience

Den Rene Linie 2019 May - Present
Cleaning Assistant

Exinko Ltd. 2020 Oct - Present
Freelance UX/UI designer

The company develops websites for clients. I create color palettes, style guides and low to high-fidelity prototypes. I also participate in the development of Wordpress websites.

Gotour Danmark 2021 Feb - Apr
Web Design Trainee

I redesigned the company's website with special care for a better information architecture and improved UI. I also created an animation explaining the company's business model to one of their customer segments.

Internet Zoo 2020 Jan - Apr
Video Editor Intern

I created storyboards, edited and finalized trailers for game concepts, that the company shared on social media. I learned how to create simple motion graphics and popup infographics using Adobe After Effects.

Education

University College of Northern Denmark 2020 - Present
Digital Concept Development Top-up degree

I am studying subjects revolving around concept creation. I study value creation, different user research methods, project management methods and marketing strategies focusing on digital marketing.

University College of Northern Denmark 2018 - 2020
Multimedia Design and Communication AP degree

I learned front-end development and necessary design theories, methods and use of tools, in order to create user-friendly website designs.

Xantus Janos Bilingual Vocational School 2014 - 2017
Specialization in Hospitality and Tourism + Tour operator training
